

REFRESHING RENOVATIONS

Newly renovated hotels in the U.S. from coast to coast include the Four Seasons Hotel Chicago, the Omni Las Colinas Hotel and more.

Annapolis Waterfront Hotel

The Annapolis Waterfront Hotel in Annapolis, MD, a member of Marriott International's Autograph Collection, has completed a comprehensive, multimillion-dollar renovation, including the exterior, the 150 guestrooms and the meetings and event spaces.

The renovation of the only hotel in the area located on the water was designed by Washington-based firm Baskervill using ocean hues of blues, grays and tans, as well as natural materials in furniture and accessories throughout the rooms and public areas. The design of each of the 150 guestrooms and the signature Waterfront Harbor Suite was inspired by elements of a sailboat, with warm tones and textures derived from the sailboat cabins in the hull of a vintage seafaring vessel.
